

# SHAMROCK PUNCH NEEDLE PROJECT

What you need:

- Monk's Cloth
- Scissors & Pins
- Large Punch Needle
- Embroidery Hoop (8")
- Medium Weight Yarn (#4)

Step 1: Thread your Large Punch Needle. Insert threader into the tip of your needle and through the barrel. Insert yarn into the wire loop, that is now visible out the bottom, and pull the white tab. Your Punch Needle is now threaded with yarn! *\*Note - Our Punch Needle is in the D setting (24mm)*

Step 2: With a pencil, trace out your Shamrock Pattern onto Monk's Cloth and mount to an 8" Hoop.

Step 3: Your needle should go through the fabric all the way to the grip. Lift it out and continue.

Step 4: Follow the pencil marks to fully trace out the Shamrock in green yarn. *\*Note - Keep the needle as close to the fabric as possible for a uniform look.*

Step 5: Now that you have an outline, proceed to fill in your Shamrock.

Step 6: Cut off the excess yarn, where you started and ended with the green yarn. Follow Step 1 to re-thread your Punch Needle with Black Yarn.

Step 7: Carefully punch needle with Black Yarn around the outside of your Shamrock. Punch needle your way to the edge and trace out the circle. Now fill in the rest of the canvas with Black Yarn.

Step 8: Gently remove your completed project from the hoop, flip it around and re-mount to your hoop. (This is a preference, you can decide which side you like best.) Gather stitch the excess cloth together at the back for a cleaner look.
