- Scissors / Rotary Cutter
- Ruler
- Straight Pins
- Optional: Fabric Chalk

**Note: Before buying fabric check the measurement chart. These recommendations are for an adult sized poncho.**

## Fabric Recommendations

---

- Arctic Fleece
- Micro Fleece
- Plaid Bonded Fleece
- Outback Fleece
- Mountain Fleece
- Coral Fleece
- Lambskin Fleece

## Tips before you start

---

- It's a good idea to pre-wash your fabric before you start.
- Decide on the size of your poncho (see measurement chart) before you measure and cut your fabric.

# Measurements

---

- If you want to adjust the poncho to your size.  
Follow this measurement guide to determine your cutting sizes.

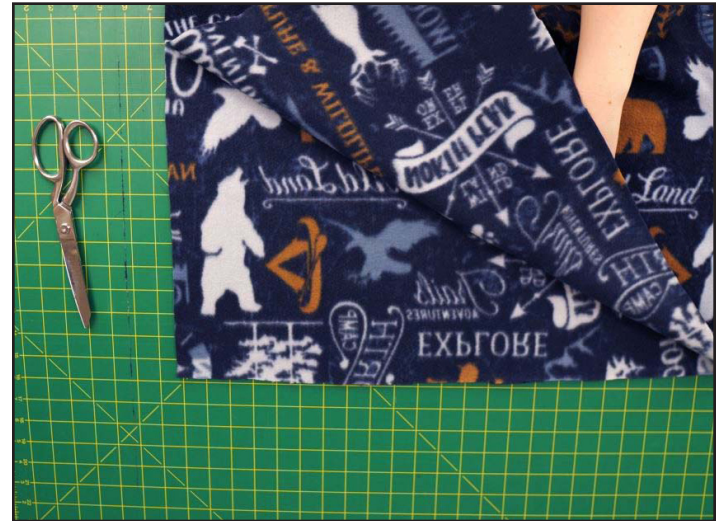

<b>Measurement Chart</b>	
<b>Fabric Requirements</b>	<b>Inches(metres)</b>
Adult	48" (1.25m)
Child	38" (1m)
Toddler	20" (.8m)

# Instructions

## Step 1: Remove The Selvage

Cut off the selvage edges.

## Step 2: Cut the Fleece Into Two Pieces

Cut on the width to make two pieces into these dimensions:

**ADULT**                      **30" L X 48" W (76CM X 122CM)**

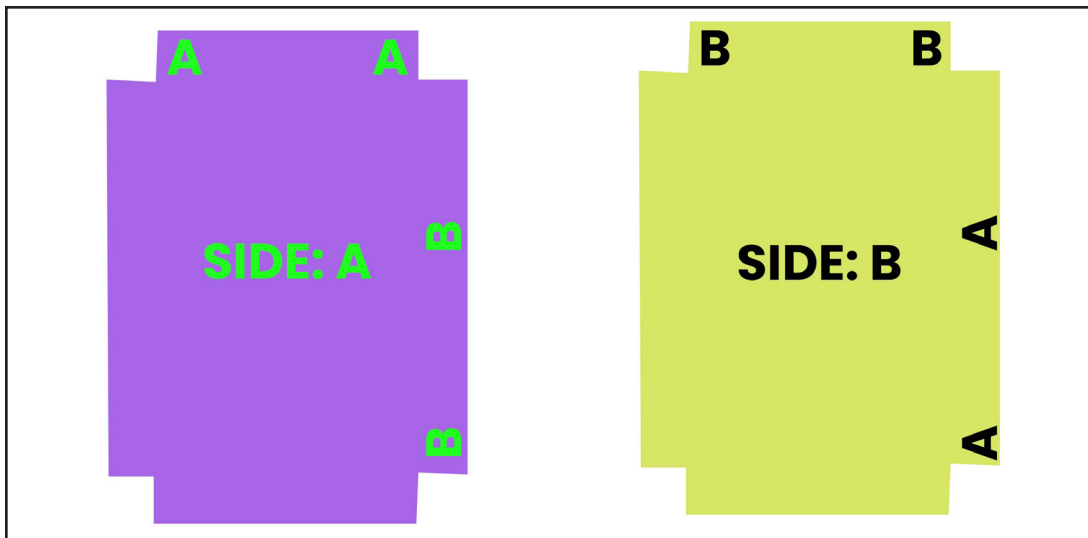

**CHILD**                      **28" L X 38" W (71CM X 96.5CM)**

**TODDLER**                      **20" L X 28" W (51CM X 71CM)**

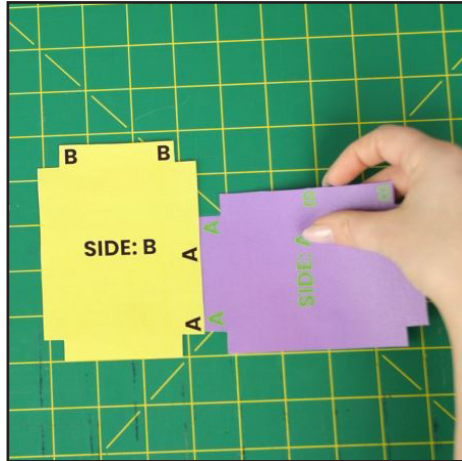

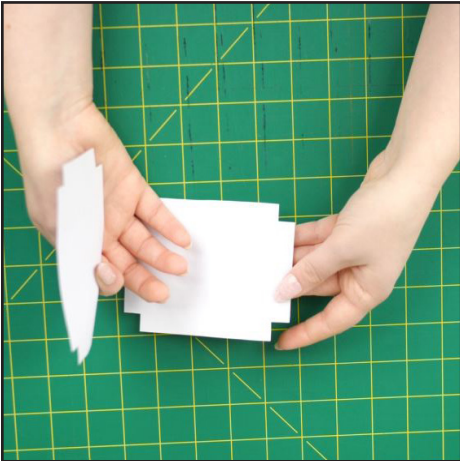

### Step 3: Cut a Square from Each Corner

Cut out a 4" (10cm) square from each corner of the two fleece rectangles.

### Step 4: Optional Marking

Mark the fabric with fabric chalk or reference back to this descriptive photo on how all the "A" and "B" pieces should connect together. The A and B on the long side of each piece must be marked at the bottom of the right side.

### Step 5: Place Each Piece Side By Side

With right sides facing up, match up the A and B marks from Step 4. The short sides will meet up with the bottom half of the long sides you marked. This will create the neckline.

### Step 6: Pin A to A and B to B

Pin the top of A to the side A with wrong sides together. Do the same with Bs. (Refer to Step 4)

### Step 7: Cut Fringe

Cut 4" (10cm) deep and 1" (2.5cm) apart along the pinned area.

Note: See under step 8 to see other types of fringe styles before cutting as some fringe requires different depths and widths.

### Step 8: Tie the Fringe

Tie the fringe of each side together.
