

Canada Day Ribbon Wreath

Materials:

- Various red and white ribbon (approximately 20 inches per piece)
- 1 Metal wreath
- Scissors

Step One: Wrap a piece of ribbon around the outside of the metal wreath. Secure it with a knot and then make a bow. Cut the ends to be even and repeat, alternating the colour ribbon.

Step Two: Once your wreath is completely covered with ribbon bows, create a small opening to tie a ribbon so that you can hang your wreath on the wall. Tie a knot and then repeat on the opposite side.

Step Three: Hang your wreath and enjoy!
