

NO NEEDLE FINGER LOOP KNIT

Cleaning Accessories

MATERIALS:

- Jumbo 7 Loop Yarn
- Scissors
- Measuring Tape

* **NOTE:** No knitting needles are required for the following knitting patterns. Right side of project is always facing up while knitting, and is worked in alternating directions with no turning of work required. Avoid loops from twisting and make sure not to skip any loops.

HOW TO KNIT:

Lay loops flat, facing up, in the width of your project. This is your base row (Cast On). Working right to left, back to front, thread the next loop in sequence through the last loop of the base row, pulling the loop towards you. Continue until you have worked your way to the left. Continue alternating directions.

HOW TO BIND OFF:

Knit the next 2 loops as you would. Thread the second loop into the first loop, from front to back, pulling the loop away from you. Knit the third loop, and continue this sequence until all stitches have been secured. Cut the last loop to create a yarn tail. Tie a knot and weave in all ends.

Reusable Mop Pads

1 ball of yarn is required for this project.

With yarn, measure the mop's width, then add 6" (15cm). This is your base row (Cast On).

Knit each row until length measures the mop's depth. Bind off and weave in all ends.

With right side facing up, fold each ends over 3" (7.5cm).

Cut open excess loops to create a strand of yarn, and weave together edges on all 4 sides. Flip inside out.

Keep bottom surface flat OR add loops for added mop texture. Weave loops through stitches of each row.

Tie a knot on both ends and weave in any loose ends.

Cleaning Mittens

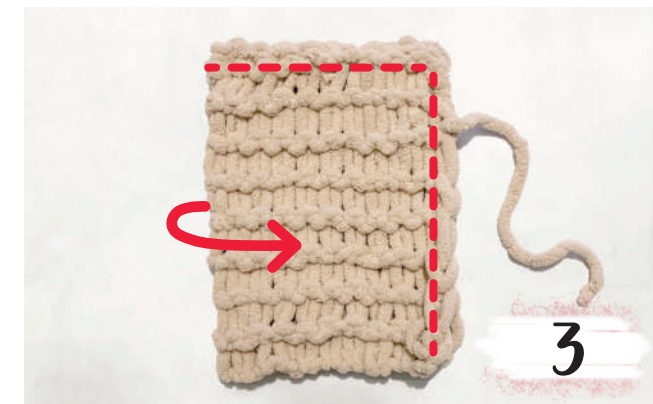

1 ball of yarn is required for this project.

Cuff: Cast On 14 loops. Knit 3 rows. Bind off. Fold in half lengthwise, and with tail end weave edges together.

Mitt: With yarn, measure 14" (35.5cm). Knit each row till desired length. Bind off.

With right sides together, fold in half lengthwise. With tail end, weave top and side edges together.

Cut open excess loops to create a strand of yarn. Weave bottom edge of mitt. Pull to gather in. Right sides together, insert cuff inside mitt and weave edges together. Tie a knot and weave in loose ends. Turn inside out.

Add loops on one side only. Weave loops through stitches of each row until you reach the cuff.

Use loop side for dusting and flat side to wipe off flat surfaces.
